

## Directions to MBI (Molecular Biology Institute).

Directions: From 405 Freeway, take the Wilshire Blvd. EAST/Westwood exit which will have you going East on Wilshire. A few blocks east is Westwood Blvd. Turn left. Go north on Westwood directly onto the UCLA campus. Get in the left lane and stop at the parking booth. Let them know you are going to a meeting in MBI. Get an \$8 parking pass and ask for Parking Structure 2 (showing them your UC staff-parking pass should get you a free pass). Proceed to the next intersection, and make a u-turn heading the other way. At the next light, turn left onto Charles Young Dr. East. Go up the hill a half-mile and you'll see Parking Structure 2 on the right. Insert your pass to get through the gate. MBI is 25 yards directly West from the parking structure, you have to walk around the Molecular Sciences Building (MSB) there are signs posted due to the construction. Go to meeting room 159 making a left after you walk into the building. The room will be on the left.

These are all subject to change as the construction sites change. You can call the UPTE Office at 310-443-5484 M-F, 9a-5p for any Westwood navigation questions.
